## PRESSURE ULCERS IN INTENSIVE CARE UNITS

“The global Point-Prevalence Study”

---

**Objective:** This multicentre international one-day point prevalence study will provide an up-to-date global picture of the extent and patterns of pressure ulcers in adult ICU patients.

**STUDY DATE 15 MAY 2018**

**1-day point prevalence with a 84-days follow-up**

ICUs of all sizes and in all locations are welcome to participate!
